The pension product is only PPI offered in combination with a basic and/or excess scheme at Zwitterleven PPI. The commitment is a defined contribution scheme based on investments (pure contribution agreement) and, optionally, a surviving dependants' pension (net partner's pension and net orphan's pension). The insurance premiums for contribution waiver due to occupational disability and for the net surviving dependants' pension are charged to the employer separately from the investment contribution.

Investments

Employer options

The employer may choose from various forms of investment. The following combinations are possible:

- HorizonBeleggen with the option of ProfielBeleggen.
- HorizonBeleggen with the option of ProfielBeleggen and Vrij Beleggen.

These various forms of investment are explained below. Further information on this is available at zwitserleven.nl/investmentforms.

HorizonBeleggen

The standard option is that participants invest according to HorizonBeleggen. They do not need to make investment decisions. Zwitserleven PPI is responsible for reducing risk (also known as prudent investing).

With HorizonBeleggen, Zwitserleven PPI will reduce the risk of the investments as the standard retirement date approaches.

ProfielBeleggen

With ProfielBeleggen, we establish the participant's investor profile by means of a questionnaire. The degree of risk (higher or lower) is established according to the outcome. This ranges from cautious to offensive. This also depends on the preparation for a fixed or variable pension. Here, too, the risk of the investments is reduced as the standard retirement date approaches.

Preparation for Zwitserleven Variable Pension

The investment mix for ProfielBeleggen is determined according to the preference for a variable or fixed pension income, or a combination of the two. At the moment the de-risking starts in the lifecycle, an employee can make preparations for receiving a variable pension from their retirement date. If on their retirement date an employee chooses to continue investing, they have a chance of receiving a higher pension. But they will also incur risk for longer.

| | |
|------------------------|---|
| VrijBeleggen | The participant will then make their own investment decisions. After determining an investor profile, the participant can invest in one or more investment funds. |
| Rebalancing | Zwitserleven PPI uses bandwidths. We make adjustments as soon as a bandwidth is hit. This bandwidth is 15% relative. This means rebalancing occurs as soon as a fund, comprising 50% of a life cycle, undergoes a weight increase or decrease of 7.5%. Rebalancing may apply for HorizonBeleggen and ProfielBeleggen. This will be once a month. Rebalancing is applied only if a fund deviates more than 15% from the strategic allocation at that one point during the month. |
| ZekerheidZwitch | ZekerheidZwitch (purchase of a deferred fixed pension income) is not available with the Net Pay Pension from Zwitserleven PPI. |

Investment costs

| | |
|---------------------|---|
| Fund charges | <p>The total fund charges consist of management fees (deducted from the value of the plan assets) and a 'total expense ratio/service fee' (included in the unit price of a fund). Entry and exit charges for transactions are included in the price.</p> <p>Investment Information and Prospectus for the fund in question (see zwitserleven.nl/funds).</p> |
| Switch costs | There are no fees for processing a switch of investments when changing an investor profile (ProfielBeleggen) or investment mix (VrijBeleggen). |

Other charges

| | |
|---|--|
| Service charges | The service charges are € 60 per participant per year. The employer pays these costs to Zwitserleven PPI and deducts them from the participant's net salary. We only charge for the period of participation in the scheme. |
| Divorce | No charges are made in case of divorce. |
| Transfer of accrued benefits | No charge are made for incoming and outgoing transfers of accrued benefits. |
| Group transfer of accrued benefits | Only permitted if there is a group transfer of accrued benefits for the basic and/or excess scheme. |
| Hourly rate | In case of exceptional changes or calculations, an hourly rate of € 146.57 (2024) will be charged to the employer. For more information, go to zwitserleven.nl/ourservices . |
